

100% Indigenous-Owned and Operated | Indigenous Procurement Policy (IPP) Eligible

About AAAIBiz

AAAIBiz helps businesses and organisations integrate AI into their existing operations. We are a methodology company, not a product company. We provide the method, the architecture, and the execution engine for practical, governance-aware AI adoption. Our approach is assessment-first: we identify the real problem before recommending any solution.

Core Capabilities

- AI Opportunity Assessment & Gap Analysis: Structured evaluation of workflows, bottlenecks, and AI-readiness
- AI Compliance & Governance: Policies, transparency statements, use-case registers, impact assessments (meets Government AI Policy v2.0)
- AI Integration & Workflow Automation: Custom AI workers trained on YOUR policies, procedures, and data
- AI Strategy & Advisory: Roadmaps, prioritisation, and staged implementation plans
- Custom Platform Builds: Case management, reporting, compliance tracking, client-facing portals

Why AAAIBiz

- Only Indigenous-owned AI integration firm in Australia with legislated IPP market access
- Governance-first approach: we ask what is appropriate, not just what is possible
- Methodology over domain expertise: we surface universal workflow patterns and build from there
- Free AI Needs Assessment as the entry point: no barrier to starting the conversation

Services

- > **Free AI Enquiry & Fit Check** **No cost**
Short first conversation to understand your situation and determine the right path.
- > **Free AI Opportunity Assessment** **Limited Time**
Practical assessment for smaller cases to identify useful AI, software, or workflow improvements.
- > **Governance & Implementation Assessment** **AUD \$2,400**
Deeper assessment with practical direction, prioritisation, and governance-aware implementation options.
- > **AI Compliance Shield** **Dec 2026 Deadline**
Helps organisations meet Government AI Policy v2.0 compliance requirements.
- > **Custom AI Worker Build** **Tailored**
AI workers trained on client documentation for front-desk, compliance, grants, reporting, and more.

Serving

- Federal, State, and Local Government Departments (via Indigenous Procurement Policy)
- Aboriginal Community Controlled Health Organisations (ACCHOs)
- Indigenous Businesses seeking AI integration and digital transformation

- SMEs and growing teams needing practical, governance-aware AI adoption
